PROFESSIONAL SUMMARY

Frontend and Software Engineer with proven experience shipping responsive, production-ready web applications using **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Author of an accepted peer-reviewed research paper on AI document processing at **ICMLDE**. Experienced in full-stack architecture, integrating modern LLM APIs (Groq, Gemini), cloud storage, and high-performance databases. Seeking a Frontend or Software Engineering role with pathways into AI-driven product engineering.

CORE TECHNICAL COMPETENCIES

- **Frontend & Frameworks:** React 19, Next.js 15 (App Router, SSR), TypeScript, JavaScript (ES6+), Tailwind CSS, shadcn/ui, HTML5, CSS3
- **APIs & AI Integration:** Groq Cloud AI, Google Gemini API, RESTful APIs, Cloudinary, EmailJS
- **Databases & Arch:** MongoDB, Component-Driven Design, State Management, Responsive Design, Performance Optimization
- **Tools & Workflow:** Git, GitHub, Vite, Vercel, Postman, ESLint, Windows Hardware & Diagnostics

TECHNICAL PROJECTS

ToolDeck — Curated Free AI & Developer Tools Directory | aitooldesk.vercel.app • Next.js, TypeScript, Gemini API, Tailwind CSS Code

- Architected a high-performance discovery platform indexing **100+ free AI tools**, developer utilities, and creative software with category filtering and zero paywall redirects.
- Integrated the **Google Gemini API** to deliver contextual tool recommendations matching user natural-language task prompts, significantly streamlining user workflow.

DocDigitize — Full-Stack AI Document Scanner & Summarizer | docdigitize.vercel.app — Final Year Project • Next.js, Groq API, MongoDB, Cloudinary

- Engineered a full-stack document intelligence application extracting structured text from multi-format files (PDFs, Word, Scans) with sub-second AI summarization powered by the **Groq Cloud API**.
- Implemented secure user registration, token-based session handling, and MongoDB persistence to ensure strict document isolation.
- **Research paper accepted for academic publication at ICMLDE** (International Conference on Machine Learning and Data Engineering).

Enterprise Admin Dashboard | github.com/erikefedavid/Admin-Dashboard — React, Tailwind CSS, FullCalendar, Vite

- Built an interactive operations dashboard featuring data visualization charts, interactive schedule calendar, and modular widgets with 100% responsive fluid mobile-to-desktop layouts.

Personal Portfolio (davebuiltit) | daviderikefe.vercel.app — React 19, Tailwind CSS v4, Vite, HTML5 Canvas

- Engineered a minimalist developer portfolio featuring interactive 60 FPS mouse-reactive space canvas, dynamic typed headline, automated copyright calculations, and instant contact routing.

PRACTICAL EXPERIENCE

Intecon Partnership Limited — ***IT Engineering Intern (SIWES)*** — April 2025 – August 2025 | Ibadan, Nigeria

- Provided comprehensive hardware, software, and network troubleshooting across 20+ engineering staff workstations under the IT Manager.
- Executed clean OS deployments, diagnosed motherboard and component faults, and maintained 99%+ system availability.

PUBLICATIONS & HONORS

- **ICMLDE Conference Publication Acceptance:** Lead author of accepted research paper detailing AI-powered optical character extraction, document summarization, and cloud data architecture in student academic workflows.

EDUCATION

Lead City University — ***Bachelor of Science (B.Sc.) in Computer Science*** — Ibadan, Nigeria | Expected December 2026
